Cover Letter

Dear Hiring Manager,

I am writing to express my interest in the Senior full stack position at your organization. With a Bachelor's degree in Computer Science and professional experience at Technology Solution and Development TSD Co,LTD, I have developed strong expertise in both project management and backend system development.

Currently serving as a Project Team Leader, I am responsible for managing project timelines, coordinating with cross-functional teams, analyzing system and database flows, and reporting project progress to management. I also work closely with clients to gather requirements, prepare project quotations, define project scope, and ensure successful delivery aligned with business objectives.

In addition to leadership responsibilities, I have hands-on technical experience as a Backend Developer. My technical skills include Laravel, CodeIgniter, PHP, MySQL, REST API integration, Ajax Query, HTML CSS, Javascript, and Tailwind css, system customization (POS and CRM), debugging, and ongoing system support. This combination of management and technical expertise allows me to bridge the gap between business needs and technical solutions effectively.

My strengths include:

- Laravel Backend expert
- PHP expert
- System and database analysis
- API integration and backend architecture
- Problem-solving and system optimization
- Team leadership and collaboration

I am highly motivated, detail-oriented, and committed to continuous learning and professional growth. I am confident that my technical background, and project management experience would make me a valuable asset to your organization.

Thank you for considering my application. I look forward to the opportunity to contribute to your team and discuss how my experience aligns with your company's goals.

Best regards,

Mol Ryna
